WORK EXPERIENCE

Teaching Assistant — Environment, Society & Government (COMM 394)

May 2026 – Present

University of British Columbia • Vancouver, BC

- Supported 200+ students in understanding course material covering environmental policy, corporate governance, and stakeholder management frameworks
- Facilitated discussions and assisted with grading to maintain consistent academic standards across assignments and assessments

Teaching Assistant — Management Information Systems (COMM 205)

Sep 2025 – May 2026

University of British Columbia • Vancouver, BC

- Supported 450+ students weekly clarifying core MIS concepts and troubleshooting Excel functions, guiding in-class exercises that improved assignment outcomes and reduced data-cleaning errors
- Collaborated with instructors to streamline grading workflows and uphold academic integrity across quizzes, assignments, and exams, increasing marking efficiency course-wide

Accountant / Bookkeeper

Jan 2023 – May 2024

Occasio Fine Homes Inc. • North Vancouver, BC

- Increased financial record accuracy by 25% by automating data entry and establishing a structured invoicing workflow in QuickBooks, while overseeing daily bookkeeping including invoices and receipts
- Improved data collection efficiency by leveraging company-wide software to streamline direct inputs for financial statements

Data Warehouse Intern

Jul 2022 – Sep 2022

OSI Maritime Systems • Burnaby, BC

- Reduced inventory record discrepancies by cross-referencing data from Sage 500 and PDX using Excel, while managing inventory inputs, goods movement, and warehouse accuracy
- Enhanced data consolidation efficiency by 20% by unifying data from multiple sources onto a company-wide database and supporting warehouse operations

EXTRACURRICULAR ACTIVITIES

VP Finance & Financial Director

Sep 2024 – Present

UBC Product Management Club • Vancouver, BC

- Oversaw allocation of \$16,000 across events and sponsorships, implementing cost-tracking systems that reduced overspending risk and improved financial transparency for executive decision-making
- Boosted grant acceptance rates by aligning submissions with UBC's official grant requirements and supporting preemptive risk management to ensure financial health of the club

Data Analyst

May 2025 – Present

UBC Data Science Club • Vancouver, BC

- Analyzed member engagement and event attendance data using Python and Tableau, uncovering trends that informed scheduling decisions and increased workshop participation
